## Lenovo V Series

To access the Lenovo Storage V7000 support website, which is referred to throughout this “Read First” document, go to the following website:

<http://support.lenovo.com/us/en/products/servers/lenovo-storage/v7000>

This product contains code that might be subject to third-party license agreements or terms that require Lenovo to provide you with certain notices. Your use of this product indicates your agreement to the terms of the applicable third-party license agreements. Some of the third-party license agreements might be presented to you the first time that you use the product or certain programs included with the product. Other applicable licenses or notices are shipped with the product, or they are included with the product code that can be downloaded from the Lenovo V Series support websites.

### The Lenovo V Series hardware

To install your system, follow the instructions in the *Lenovo Storage V7000 Installation Poster* and follow the instructions in the *Lenovo Storage V7000 Quick Installation Guide*.

### The management GUI

To access the management GUI, you must ensure that your web browser is supported and has the appropriate settings enabled. Refer to the Lenovo V Series support websites for information about the supported operating systems and web browsers, and required web browser settings.

### The Lenovo V Series software

You must upgrade to the most current level of software after installing the Lenovo V Series. The management GUI can be used to apply software updates. Refer to the Lenovo V Series support websites for the latest information on software upgrades.

### Host and storage environments

To obtain information about supported versions of hardware and software, for host and storage environments, refer to the Lenovo V Series support websites.

### The Lenovo V Series library

The appropriate Installation Poster and the “Lenovo V Series Quick Installation Guide” are shipped with the product hardware, for your convenience. However, there could be later updates made to the documentation. The most current version of the publications, and any associated errata, are online on the Lenovo Storage V7000 support website. You can view the most current version of the Lenovo Storage V7000 information center online at: <http://publib.boulder.ibm.com/infocenter/systemx/documentation/index.jsp?topic=/com.lenovo.storage.vseries.doc>.

### For the Client Storage Administrator: Get Connected

Your Lenovo Storage System Product is designed to deliver high performance services with quality and satisfaction. As part of Lenovo's ongoing quality improvement processes, we periodically issue updates to our product which help improve overall quality and reliability. We communicate new information of this nature through IBM's My Notifications process. The information available to you covers a broad range of materials including software knowledgebase documents, Preventative Service Planning information, fix information, security advisories, and more. Users may have multiple subscriptions and can be notified by email, web folder and/or syndication feeds (RSS, Atom) that new or updated content is available.

Registering for My Notifications is strongly recommended to establish quick links to important information and to receive daily or weekly notifications of the following product specific information:

- Downloads and drivers

- Flashes
- Forums / discussion groups
- Problem solving information
- Product information and publications

To register for My Notifications, first establish an IBM ID and password at <https://www.ibm.com/account/myibm/profile.do?cc=us&lc=en&page=reg> and then go to <https://www.ibm.com/support/mynotifications> to set up your notification preferences.

Thank you for your prompt attention to this matter. We are proud to have you as a customer and are committed to keeping you satisfied with our products.
