

1U and 3U Quick Install Filler Panel Option information

The Lenovo 1U Quick Install Filler Panel Set contains five 1-U filler panels. The 3U Quick Install Filler Panel Set contains five 3-U filler panels. The filler panels are used to cover unused rack mounting space for correct circulation of air inside the rack.

Attention: Do not leave open spaces above or below an installed server or option in the rack. To help prevent damage to server components from poor air circulation, always install a blank filler panel to cover the open space.

To install a quick-install filler panel, snap it into place in the open space on the rack.

Customer-replaceable unit part numbers

The customer-replaceable unit (CRU) part numbers are subject to change without notice. The following table contains a listing of the CRU part numbers that are available as of the date of this printing.

CRU part number	Description
97H9754	1 U filler panel
97H9755	3 U filler panel
